

The Premia Academy

The Premia Pulse

July 2023

Thank you for the music !

From The Editor's Desk

We have resumed the Academic Year 2023-24 with great vigour!

Back-to-school season after a long vacation is a tug-of-war between wishing for one more lazy day at home and looking forward to swapping stories with friends and classmates.

A few snapshots from this month - the little ones enjoying a Yellow Day and painting the school with sunshine and their bright smiles, while the high school students treated us to a Jam session beautifully trained by their music mentors!

And there's so much more - including a new team of students who have diligently worked on this edition. Cheers to you all!

-Nandika Preetham
Faculty In-charge, Ministry of Literary Affairs

Faculty in-charge Civic Responsibility	Ms. Ruchi Tandon

Premia Student Council 2023-24

The Investiture Ceremony

Harini Alwala (Gr. VIII) and Sai Lalith (Gr. VII), our hosts for the ceremony extended a warm welcome to everyone. We invoked the blessings of the almighty through the lighting of the lamp, accompanied by a prayer song sung by Bhavya Sameera of Grade X. This was followed by a captivating classical dance performance, setting the stage for the newly elected Student Council members to proceed with the swearing-in ceremony and receive their badges. It was a momentous day to bestow responsibilities on young leaders and reward their commitment and competence.

Our Chief guest, Ms. Anjali Kariappa Chengappa, Founder, SpringUP Leadership, believes in holistic education. She imparted valuable advice to the students, highlighting that leadership is not merely about holding a position instead it is an attitude to be cultivated.

-Zaara Ali Syeda, Gr. IX

Premia MUN 2023

Letter from the Premia MUN Secretariat

Dear Delegates, Executive Board Members, Press Members and Friends,

At PremiaMUN we believe in empowering global minds and that every student has the ability to comprehend global issues and introduce effective solutions for the same.

MUNs are an incredible platform to showcase problem-solving mindsets and how our generation can make a difference in resolving the issues of the world.

On behalf of The Premia Academy, we are stoked to invite you to the maiden Model United Nations Conference of the Premia Academy.

The committees for this year include:

- The United Nations Human Rights Council,
- The Disarmament and International Security Committee,
- The World Health Organisation,
- The Lok Sabha,
- The Commission for Status of Women & of course,
- The International Press!

Throughout this conference we encourage you to be brave: talk, debate, and converse with your peers to come up with solutions and ideas. Do not feel afraid of losing or sounding silly, everyone's been there and every voice has at the very least a few good points, taking your first steps is more important than walking a mile. No matter how little your country may play a role, it is always possible to make it important. Do your best and most importantly, make sure you have fun!

The faculty and secretariat are devoted to providing you with the best experience possible. We look forward to seeing you all on the 27th and 28th of July 2023!

Thank you,

Madhavi Sanskriti and Aaron Maricar
Secretary General and Director General

From The MUN Coordinator's Desk!

Ms. Sunita Saripally
MUN Coordinator

At the Premia MUN we promise to take you through a transformative journey which will help you nurture global awareness and diplomacy. This simulation will aid in imbibing the skills of negotiation, pave way to become effective communicators and shape you into future leaders for a positive change!

Field Trips

Grade VI - Meteorological Department

The giant football that was used to protect the doppler weather radar was my favourite during the trip. I was engrossed!

-Srimanyu K., Grade VI A

An evaporation showed how much water was lost, which helps us know how hot it was on that day.

- Rasik Mundada, Grade VI C

They showed us how they predict rain, cloud cover and sunlight for the coming days!

- Ranvir Singh, Grade VI B

There was an instrument called a SRRG (Self-recording rain gauge) that records the rainfall level on its own.

- Sidhiksha S., Grade VI C

Interviewed by Adiva Jaweedan, Gr IX

Grades VII & VIII - National Institute of Nutrition

A new thing that I discovered was that every snack we eat goes to the NIN for quality checking.

- Palak Bhattar, Grade VII A

My favourite part of the field trip was looking at the plant cells through a microscope. It was an amazing experiment.

- Arysha Mishra, Grade VII A

We learnt about the importance of Vitamin D.

- Harini Alwala Grade VIII A

Interviewed by Adiva Jaweedan, Gr IX

Field Trips

Grade X - Centre For Cellular And Molecular Biology

The highlight of the trip was a tour of the laboratories and my takeaway was why science must be appreciated.

- Abbas Ali Khan, Grade X B

CCMB provides numerous opportunities to engage in impactful research!

We learned about fruit fly breeding and interesting facts about DNA.

- Hamza Sikora, Grade X A

Interviewed by Adiva Jaweedan, Gr IX

Grades XI & XII - ICRISAT, Patancheru

A gene bank stores a large variety of seeds and even generations of seeds.

- Aditya Satpathy, Grade XI

They only accept US Dollars at the ICRISAT canteen!

- Imad ur Rahman, Grade XII

The crop improvement program at ICRISAT includes a high-precision phenotyping facility that includes large scale screening of plants.

- Vedamayi Madiraju, Grade XII

It was interesting to note that the soil, either red or black, affects the fertility of the plant.

They also practice rainwater harvesting and store it in artificial lakes to maintain a regular water supply.

- Tashneem Akhtar, Grade XI

Interviewed by Adiva Jaweedan, Gr IX

Events & Celebrations

Special Assembly - Eid

The occasion of Eid al Adha, famously known as Bakri-Eid, was celebrated on 28th June in a special assembly. Students participated in the program to foster community spirit, and celebrate cultural diversity.

- Jia Lakhanpal, Gr. XI

Masterchef Mania

The chefs are getting younger by the day - take a look at the youngest of the Premia Pride who donned the chef's hat and made some scrumptious sandwiches!

Telangana Formation Day

The Premia Academy commemorated a significant day in the history of our beloved state - Telangana Formation Day. We held an assembly to remember how Telangana became the 29th state of India on June 2, 2014, symbolising the triumph of democracy and the will of the people.

-Madhavi Sanskriti, Gr. XII

International Yoga Day

21st June is observed as International Yoga Day worldwide, the longest day of the year in the northern hemisphere! We at The Premia Academy also celebrated it with great enthusiasm. The celebrations began with a note on the importance of yoga by our teachers and yoga expert, Ms. Pavani. Students practiced suryanamaskar cycles followed by deep stretches which mimic nature like Partavasan (mountain pose), Bhujangasan (cobra pose), and of course, everyone's favourite the Cat-Camel flow.

A regular yoga routine can keep us fit both mentally and physically.

-Prisha Pandey, Gr. X
